Imported Oldenburg
Dark Bay Mare
Call for Price

Couleurline is a beautiful State Premium mare that we imported from Germany. Her bloodlines go back to the famous Cor de la Bryere who is one of the most important stallions in Europe.

"Cori" is back into training after having an exceptional foal in 2011. She shows a lot of talent and a great work ethic. She has big movements (Dressage?), perfect form over fences and lots of scope.

"Cori" is easy to ride, light in the bridle and eager to please her rider. She is a pleasure to be around and has no vices. With her eye catching feminine expression, she would be a great prospect for the hunter and equitation ring but also scopey and quick enough for the jumper ring.

"Cori's" first born filly by Checkland looks just like her mom and has the same great attitude and her wonderful movements. Cori could be rebred this spring (2013) while you're getting to know her, or just continue riding her.
