Mendocino

2007 16.1h
Imported Oldenburg
Brown Gelding

Mendocino is a handsome, well bred Oldenburg gelding that we imported from Germany.

His impressive appearance combined with a wonderful canter, great form over fences and a smooth, scopey jump makes him an "Eye Catcher" at every show.

Mendocino has good rideability, is light in the bridle and extremely brave. He has perfect ground manners and is easy to get along with.

Mendocino is versatile enough to excel not only in Hunter, Equitation or Jumper rings but he would also be a great eventing prospect.

This exceptional gelding competed successfully in the 3'3" jumper division in 2012 and would be a great partner for an amateur or young rider for the upcoming show season.

His sire pedigree is seen in many top event horses in Germany

Come and try this stunning gelding!
