Saterland

2006 15.3h
Imported Oldenburg
Dark Bay Mare

Saterland is a beautiful, elegant mare that we imported from Germany. The combination of her sire Stedinger and her dam sire Landadel, two exceptional stallions in Germany, makes her a great broodmare prospect after her show career.

Saterland is light in the bridle, has a big uphill canter and great form over fences with lots of scope. She has auto lead changes, is brave and has no vices.

Saterland is a forward horse and her ability to turn quick between the jumps makes her a perfect speed horse for a competitive amateur.

Saterland competed successfully up to the 3'9" jumper division during the 2012 show season.

She is ready to go and win the upcoming season!

Don't miss out on the special mare.
